MGM RESORTS INTERNATIONAL®

Forward-Looking Statements

Statements in this report that are not historical facts are "forward looking" statements within the meaning of the safe harbor under the Private Securities Litigation Reform Act of 1995 and other related laws. Such statements involve risks and/or uncertainties, including as described in the Company's public filings with the U.S. Securities and Exchange Commission (the "SEC").

MGM Resorts International (the "Company") has based these forward-looking statements on management's current expectations and assumptions, not historical facts. Examples of these statements include, but are not limited to, the Company's expectations regarding its Environmental, Social, and Governance ("ESG") initiatives and the Company's ability to achieve its ESG goals. Among the important factors that could cause actual results to differ materially from those indicated in such forward-looking statements include the continued impact of the COVID-19 pandemic on the Company's business, effects of economic conditions and market conditions, including elevated levels of inflation, in the markets in which the Company operates and competition with other destination travel locations throughout the United States and the world, the design, timing and costs of expansion projects, risks relating to international operations, permits, licenses, financings, approvals and other contingencies in connection with growth in new or existing jurisdictions, risks relating to cybersecurity and additional risks and uncertainties described in the Company's annual report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K reports (including all amendments to those reports).

In providing forward-looking statements, the Company is not undertaking any duty or obligation to update these statements publicly as a result of new information, future events, or otherwise, except as required by law. If the Company updates one or more forward-looking statements, no inference should be drawn that it will make additional updates with respect to those other forward-looking statements.

Notes on Materiality

The Company recognizes that in general, assessing materiality requires consideration not only of any applicable materiality standard, but also of our purpose in assessing materiality and in communicating to our stakeholders. Our public disclosures, including voluntary ESG disclosures include a range of topics that we believe are relevant to our business and may be of interest to our investors and other stakeholders. We use the definition of materiality established under U.S. federal securities laws for the purposes of complying with the mandatory disclosure rules and regulations enforced by the U.S. Securities and Exchange Commission (SEC) and applicable stock exchange listing standards. However, in our voluntary ESG disclosures, including those within this report, we have adapted an approach to materiality based on the specific subject matter and purpose of said disclosures. Our approach to voluntary ESG disclosures often considers broader definitions of materiality promulgated by certain external ESG frameworks and reporting guidelines, and, as a result, many of our other voluntary disclosures contained herein are not required to be incorporated into our mandatory disclosures. Relatedly, our approach to materiality in this report and other voluntary ESG disclosures means that statements made use a greater number and level of assumptions and estimates than many of our mandatory disclosures. These assumptions and estimates are highly likely to change over time, and, when coupled with the longer time frames used in these voluntary ESG disclosures are likely to be amended, updated or restated in future as the quality and completeness of our data, tools, and methodologies continue to improve.

July Assurance Update

Following a third-party assurance review completed in July 2023, metrics including energy (electricity, natural gas, and other sources), water (utility and well), Scope 1, Scope 2, and Scope 3 (fuel- and energy-related activities) carbon emissions were updated from values previously reported in May 2023. Additional Scope 3 categories (waste generated in operations and business travel) also received external assurance but the previously reported values did not change. Our 2022 assurance statement is available on our ESG website here.

Social Impact & Sustainability Goals Performance

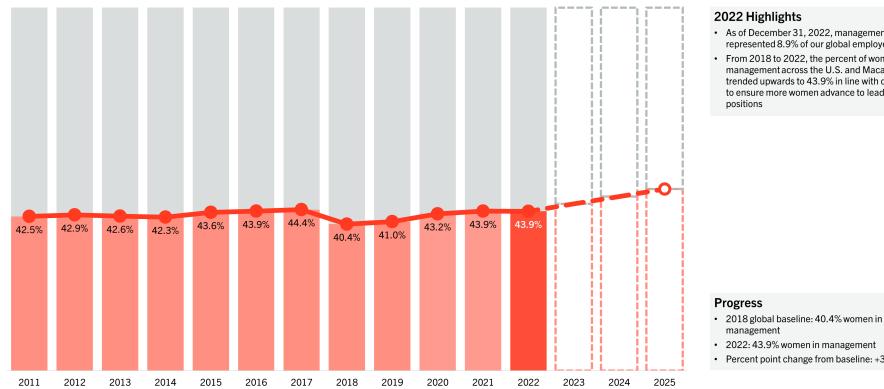

In 2017 and 2018 we established a primary set of formal forward-looking goals in our three strategic pillars of Fostering Diversity & Inclusion, Investing in our Communities, and Protecting the Planet. We have already met and reset some of these 2025 goals, and in 2021 established two 2030 climate goals: reduce our scope 1 and 2 greenhouse gas emissions by 50% by 2030 (2019 baseline) and to source 100% renewable electricity by 2030 (80% globally).

2025 GOALS	STATUS
Train 100% of management employees on Social Impact & Sustainability policies and goals	on track
FOSTERING DIVERSITY & INCLUSION	
Ensure all employees have equal access to leadership opportunities	on track
- Women in management (global)	on track
- Racial diversity in management (U.S.)	on track
Spend with diverse suppliers at least 15% of domestic biddable procurement (U.S.)	on track
Expand Supplier Diversity Mentorship Program to achieve a milestone of 150 graduates (U.S.)	on track
INVESTING IN OUR COMMUNITIES	
Expand support of nonprofit workforce development and education programs to 40% of Company giving (U.S.)	enhancing efforts
Award 600 post-secondary scholarships to children of employees (U.S.)	on track
Surpass 1.12 million cumulative volunteer hours through the Employee Volunteer Program (U.S.)	on track
Exceed \$120 million in cumulative employee donations through the MGM Foundation (U.S.)	on track
Achieve 75% participation in domestic employee donations to the MGM Foundation (U.S.)	enhancing efforts
Donate 5 million meals through our Feeding Forward program (U.S.)	on track
PROTECTING THE PLANET (all global, 2007 baseline)	
Reduce carbon emissions per square foot by 45%	achieved
Reduce energy per square foot by 25%	on track
Reduce water per square foot by 33%	on track
Reduce materials disposed per square foot by 60%	enhancing efforts

2030 GOALS	STATUS
PROTECTING THE PLANET	
Reduce absolute Scope 1 and 2 carbon emissions by 50% (2019 baseline, global)	on track
Source 100% renewable electricity (U.S.)	on track
Source 80% renewable electricity (global)	on track
Source 100% cage-free eggs (U.S. currently, global in future)	enhancing efforts

2025 Goal Charts

Women in management percent of management

Management includes employees graded in MGM HR systems as 'IC2' and above in the U.S. and level 16 and above in Macau. The years 2011 to 2017 reflect U.S. data only.

2025 Goal

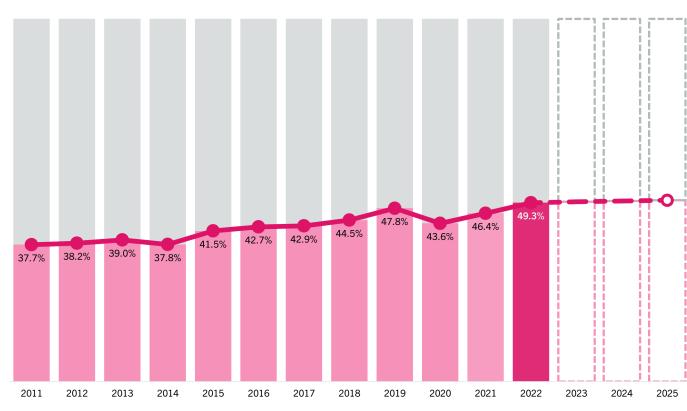

Ensure all employees have equal access to leadership opportunities

- As of December 31, 2022, management represented 8.9% of our global employee base
- From 2018 to 2022, the percent of women in management across the U.S. and Macau trended upwards to 43.9% in line with our goal to ensure more women advance to leadership

- Percent point change from baseline: +3.5

Racially and ethnically diverse talent in management (U.S.) percent of U.S. management

2025 Goal

Ensure all U.S. employees have equal access to leadership opportunities

2022 Highlights

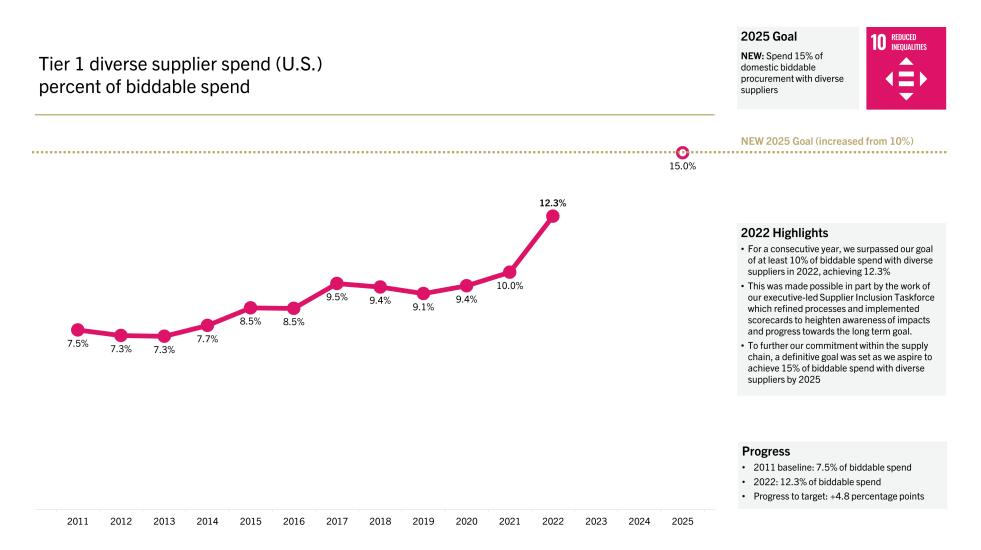

- As of December 31, 2022, 49.3% of management employees were racially and ethnically diverse
- To further drive performance towards our goal, we continued the programs we began in 2020 including data-driven diversity dashboards for properties and business units and our Accelerated Leadership Program, which included a high proportion of diverse talent
- Beginning in 2020, we also hosted a series of CEO and Board-led "Courageous Conversations" to better understand and help improve the experience of diverse employees
- The "Courageous Conversations" series helped us to better understand and improve the experience of diverse employees within our company resulting in a companywide Mentorship Program, support with the rebuild of our ENGs, and the development of a digital platform for leaders to review and understand their people data, specifically women and diversity in management

Progress

- 2011 baseline: 37.7% racially and ethnically diverse talent in management
- 2022: 49.3% racially and ethnically diverse talent in management
- Percent point change from baseline: +11.6

Management includes employees graded in MGM HR systems as 'IC2' and above.

Racial and ethnic diversity is defined in accordance with the U.S. Equal Employment Opportunity Commission (EEOC) and based on voluntary self-identified disclosure by employees.

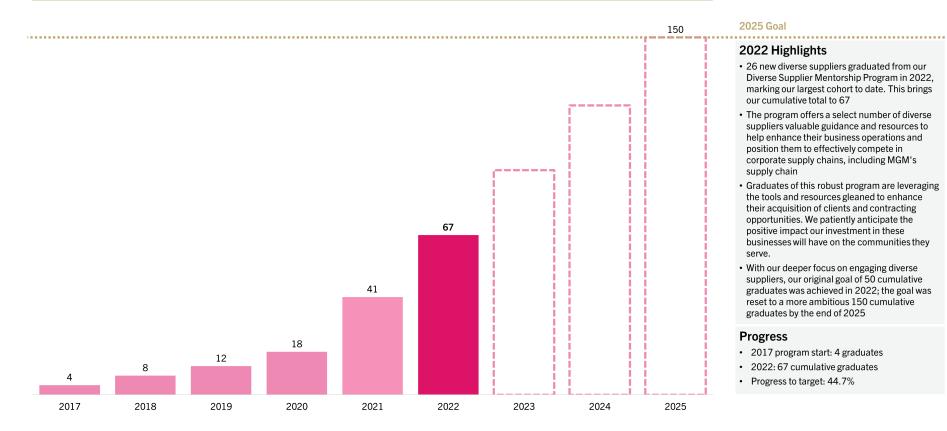

Tier 1 biddable spend: non sole-source procurement (excluding design & construction) on which diverse suppliers can bid. Tier 1 diverse supplier spend: spend with certified diverse suppliers (minority, women, veteran, disabled, LGBTQ+ owned suppliers).

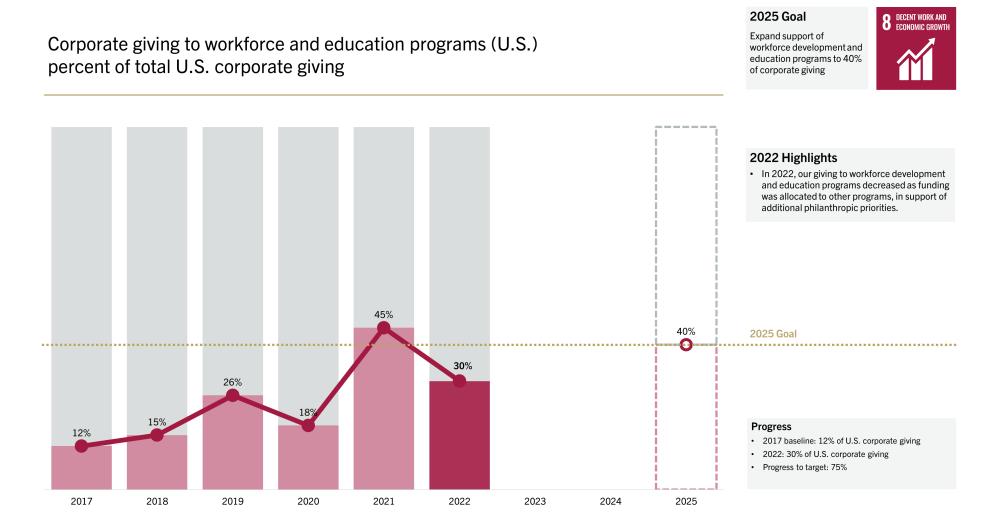

Diverse supplier mentorship program (U.S.) cumulative graduates

2025 Goal

Expand Supplier Diversity Mentorship Program to achieve 150 graduates

Corporate giving represents cash gifts from corporate entities only. Excludes in-kind gifts and giving from individual properties.

2025 Goal 600 2022 Highlights • In 2022, the MGM Resorts restarted the Scholarship program for children of MGM Resorts employees • 111 scholarships were awarded for two-year and four-year programs 319 208 208 100 Progress • 2019 program start: 100 scholarships • 2022: 319 cumulative scholarships • Progress to target: 53% 2019 2020 2021 2022 2023 2024 2025

Scholarships awarded to children of employees (U.S.) cumulative scholarships

2025 Goal

Award 600 post-secondary scholarships to children of employees 4 QUALITY EDUCATION

Community donations through the MGM Resorts Foundation (U.S.) cumulative \$

2025 Goal

Exceed \$120 million in cumulative donations through the MGM Resorts Foundation

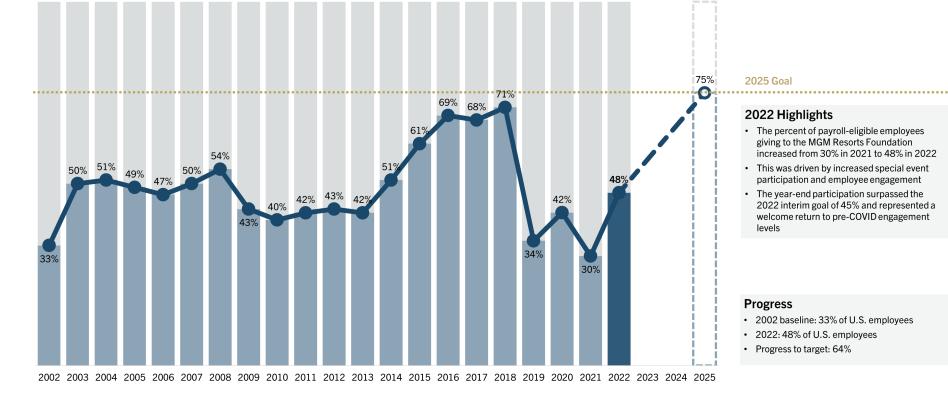

17 PARTNERSHIPS FOR THE GOALS

Employees giving to MGM Resorts Foundation (U.S.) percent of payroll-eligible employees

2025 Goal

Achieve 75% participation in domestic employee donations to the MGM Resorts Foundation **17** PARTNERSHIPS FOR THE GOALS

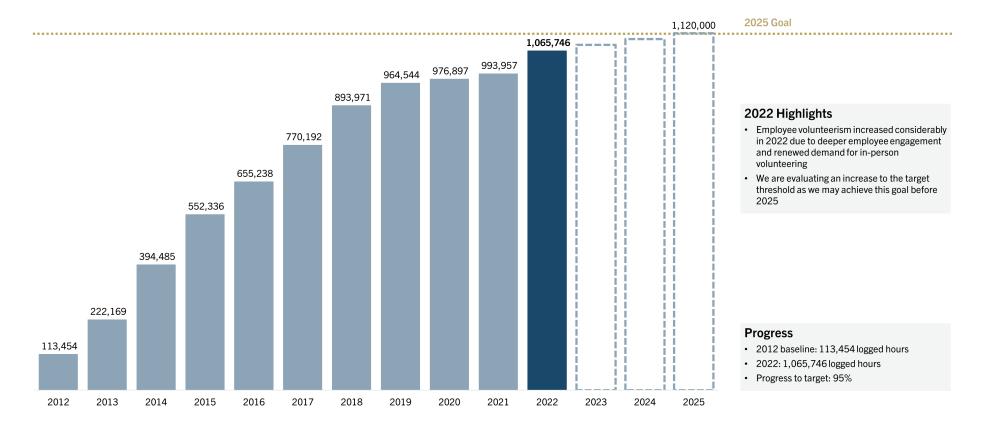

Employees currently on furlough or epidemic/unforeseen leave are not included in the number of payroll-eligible employees.

Employee volunteering (U.S.) cumulative hours logged

2025 Goal

Surpass 1.12 million cumulative employee volunteer hours

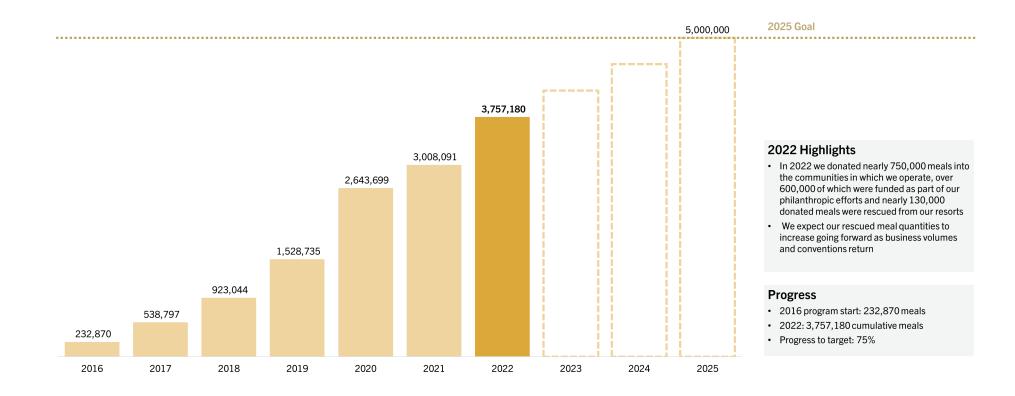

2025 Goal

Donate 5 million cumulative meals through our Feeding Forward program

Meals donated cumulative total

Energy use intensity (global) kilowatt hours per square foot

2025 Goal

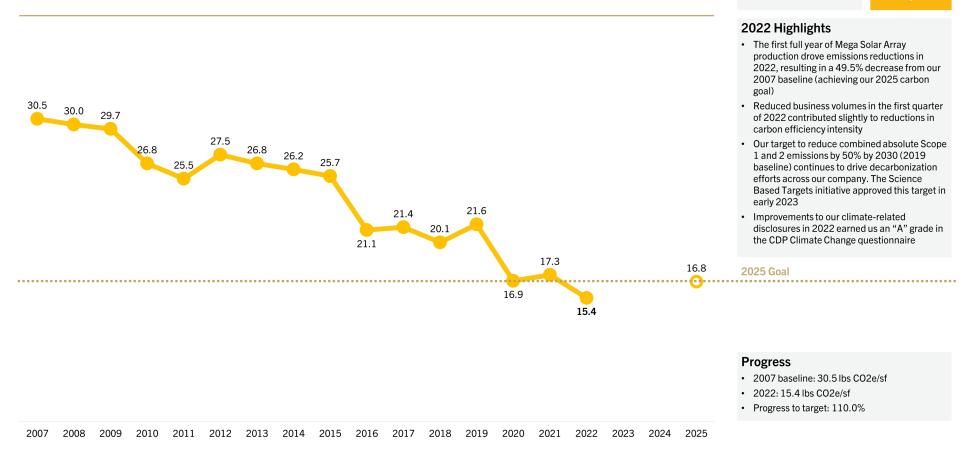

Reduce energy per square foot by 25% (2007 baseline)

2022 Highlights 31.2 • In 2022, we achieved over 90% of our 2025 30.8 energy reduction goal, but these results were somewhat affected by Covid-related business impacts in the first quarter of 2022 29.4 In the run-up to 2020, our energy intensity had been plateauing and slightly increasing due to the addition of less energy-efficient properties to our portfolio and year-over-year increases in business volumes 27.4 27.3 26.9 Between 2007 and 2022, there were a total of 26.8 26.7 231 individual projects dedicated, in whole or 26.3 27.2 substantially, to energy conservation 26.0 26.0 26.0 (electricity and natural gas), representing a total investment of \$112 million and cumulative savings of 3.6 million MWh Going forward, we expect to further invest in ٠ 23.9 efficiencies to help us meet our goal 23.7 23.4 2025 Goal 21.1 Progress 2007 baseline: 31.2 kWh/sf • 2022: 23.9 kWh/sf, a 23.4% reduction • Progress to target: 94% 2007 2008 2009 2010 2011 2012 2013 2014 2015 2016 2017 2018 2019 2020 2021 2022 2023 2024 2025

Energy includes electricity and natural gas (or equivalent).

Carbon emissions intensity (global) pounds CO2 equivalent (Scope 1 and 2) per square foot

Based on audits completed in May 2021, data for 2007 to 2020 updated from original postings on MGM Investor Relations and Social Impact & Sustainability sites on 4/28/21 and 5/6/21 respectively.

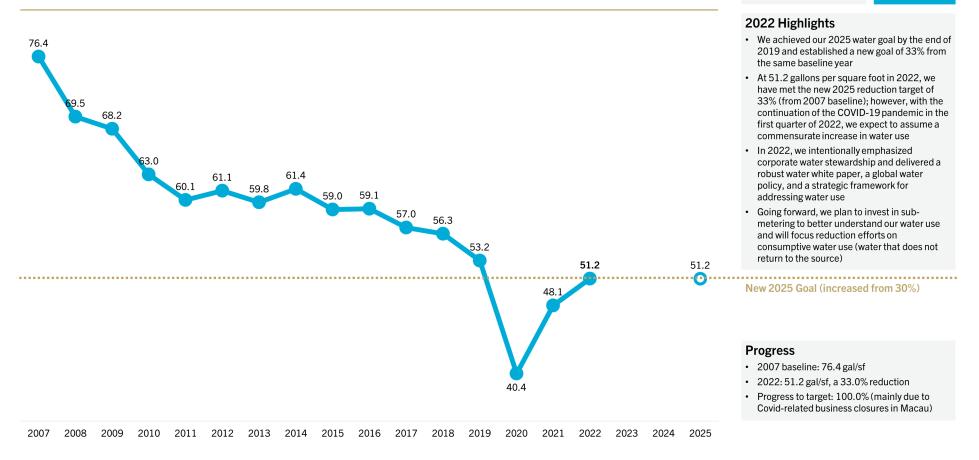

2022 Consolidated ESG Factbook

n emissions

Reduce carbon emissions per square foot by 45% (2007 baseline)

2025 Goal

Water withdrawal intensity (global) gallons per square foot

Water withdrawal includes utility water and well water.

6 CLEAN WATER AND SANITATION

2025 Goal

Reduce water per square

foot by 33% (2007 baseline)

Materials disposal intensity (global) pounds per square foot

2025 Goal

Reduce disposal per square foot by 60% (2007 baseline)

2022 Highlights

2025 Goal

- In 2021, we chose to revise our materials and waste related goal from one focused on increasing our material diversion rate to one focused on reducing materials disposed to landfill
- This revised goal addresses the material impact of waste on our business and the communities in which we operate and is better aligned with our overall climate strategy
- A focus on materials disposed allows us to include source reduction efforts as well as continued materials diversion and increases data reliability
- Going forward, we endeavor to invest in waste technologies that will help us meet our goal

2030 Goal Charts

Absolute carbon emissions (global)

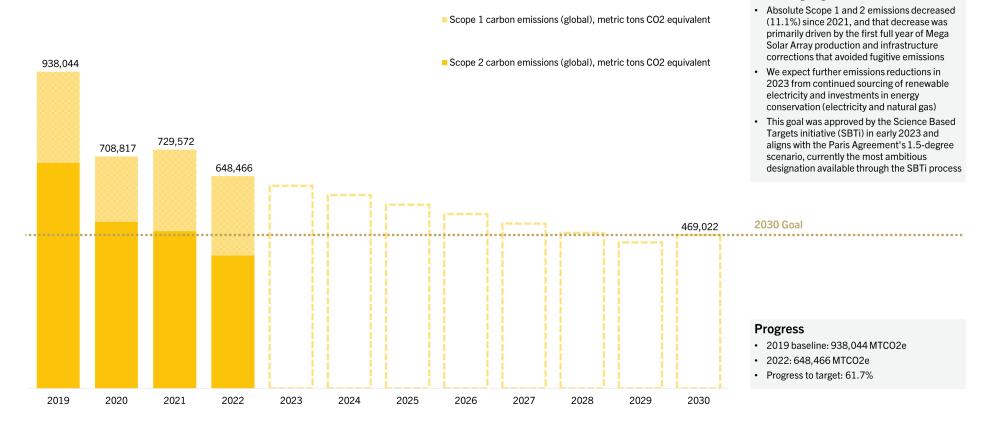

metric tons CO2 equivalent (scope 1 and 2)

2030 Goal

Reduce absolute scope 1 & 2 carbon emissions by 50% (2019 baseline)

2022 Highlights

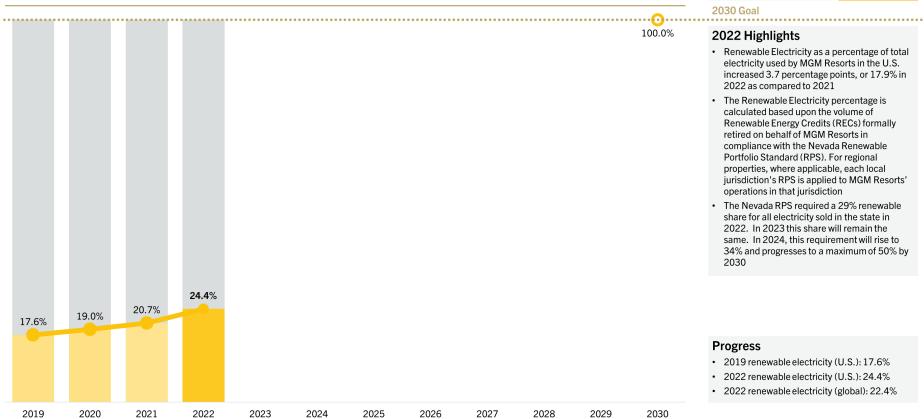

Absolute carbon emissions, adjusted reflects an adjustment of -30,027 MTCO2e to remove emissions associated with Circus Circus Las Vegas, which was divested in December 2019. The unadjusted quantity of 968,011 MTCO2e is still disclosed in other reporting as our actual 2019 inventory. The adjusted metric is used for goal-setting and tracking purposes.

Renewable electricity (U.S.) percent of total U.S. electricity

2030 Goal

Source 100% renewable electricity by 2030 (U.S.)

Fostering Diversity, Equity, and Inclusion

At MGM Resorts, we know the importance of respecting each other's differences. We endeavor to embrace and leverage those differences to achieve best-inclass experiences and cultivate stronger ties with our employees, guests, suppliers and community partners. We are committed to taking strong and principled stands on issues of equality and aim to better unify our world.

DIVERSE AND INCLUSIVE WORKPLACE ¹	2022	2021	2020

Diverse supplier mentorship program (U.S.), cumulative graduates	67	41	18

All metrics in **bold** have been verified by MGM Resorts Internal Audit.

¹ Employee metrics do not include employees of LeoVegas or The Mirage (divested in late December 2022).

² Management includes employees graded in MGM HR systems as 'IC2' and above in the U.S. and level 16 and above for MGM China.

³ Racial and ethnic diversity is defined in accordance with the U.S. Equal Employment Opportunity Commission (EEOC) and based on voluntary self-identified disclosure by employees.

⁴ 2022 figure includes Employee Mentorship Program, Management Associate Program, Jump Start, LinkedIn Learning, Accelerated Leadership Program, Executive Development, Individual Development Plan, Bersin, and Hospitality Internship Program; prior year figures include Jump Start and Mentorship Program only.

⁵ Examples of Employee Network Groups (ENGs) include African American, Veterans, Women's, Young Professionals, LGBTQ+ etc.

⁶ Tier 1 biddable spend is non sole-source procurement (excluding design & construction procurement) on which diverse suppliers can bid.

⁷ Tier 1 diverse supplier spend is spend with certified diverse suppliers (minority, women, veteran, disabled, LGBTQ+ owned suppliers).

⁸ Includes design and construction spend at Las Vegas and Mississippi properties only.

Investing in Our Communities

As a member of the communities in which we operate, we understand our responsibility to contribute to the social and economic progress of where we live. Our strategies aim to reflect, sustain, and build on the best of a community; creating good jobs, strong wages, resilient skills and workforce development opportunities for our neighbors.

Employee volunteer hours logged (U.S.), cumulative	1,065,746	993,957	976,897

All metrics in **bold** have been verified by MGM Resorts Internal Audit.

⁹ Corporate giving represents cash gifts from corporate entities only. Excludes in-kind gifts and giving from individual properties.

¹⁰ MGM Resorts direct payroll to employees in the U.S.

¹¹ Through 2019, the MGM Resorts Foundation was funded primarily by employee contributions. In 2020, significant funding was provided from other sources, including MGM Resorts International. As of 2022, the Foundation remains largely funded by employee donations.

¹² Employees on furlough or epidemic/unforeseen leave as of December 31 of reporting year are not included in the number of payroll-eligible employees.

¹³ Company giving represents cash gifts from corporate entities and individual properties. Increase driven by new grants and programs including scholarships to children of employees. Includes cash giving by MGM China, using currency conversion as of December 31 of reporting year.

¹⁴ In-kind giving includes donations other than cash that may include comps, rooms, meals, show tickets, obsolete items, labor, property events, marketing donations, one-off events and conventions. Includes in-kind giving by MGM China, converted to dollar equivalent, using currency conversion as of December 31 of reporting year.

FOOD DONATIONS	2022	2021	2020
Funded meals donated ¹⁵	620,279	285,980	453,077
Rescued meals donated ¹⁶	128,810	78,412	661,887
Total meals donated to charitable organizations ¹⁷	749,089	364,392	1,114,964
Meals donated to charitable organizations, cumulative total	3,757,180	3,008,091	2,643,699

¹⁷ Total meals donated = funded meals + rescued meals.

¹⁵ Funded meals donated includes: direct cash contributions to food banks; in-kind provision of food; or meal preparation by chefs. Cash contributions converted to meals based on estimated number of meals per dollar provided. Dollar to meal equivalent values ranged from three meals for \$1 to one meal for \$10. ¹⁶ Rescued meals donated includes: non-perishable food & beverage, perishable unprepared meals, and perishable prepared meals recovered from our resorts and donated to charitable organizations. ¹⁷ Weight of food rescued converted to 'meal' using U.S. Department of Agriculture (USDA) recommendation: 1 meal = 1.2 pounds.

Protecting the Planet

We believe a greener business is a better business and environmental leadership is critical to 21st century corporate leadership. We preserve the environment by reducing water, energy and waste, while increasingly purchasing environmentally preferable materials. We are committed to renewable electricity and being a global leader in the fight against climate change.

Materials disposal rate (global), pounds per square foot	1.7	1.5	0.9
Materials disposal per square foot change from baseline (global), %	(49.1)%	(54.7)%	(73.8)%
Materials diversion (global), metric tons ²⁷	43,075	39,463	27,343
Materials diversion rate (global), percent of materials recycled, composted, etc.	37.5 %	38.3 %	42.6 %
SUSTAINABLE EVENTS	2022	2021	2020
Revenue from client events with sustainable events plans/reports (U.S.), \$ ²⁸	\$126,521,617	\$14,873,161	\$12,043,954

²⁴ Only includes buildings owned or operated for the full year reporting period, with the exception of The Mirage, which was divested in late December 2022 and is included in the 2022 figures. The Cosmopolitan of Las Vegas is not included.

²⁵ Drop in 2022 due in part to to rising egg prices and supply issues throughout 2022. Egg purchases for The Cosmopolitan of Las Vegas which took place after MGM Resorts assumed operational control (mid-2022) are included in the 2022 figure.

²⁶ In 2021, we chose to revise our originally announced materials and waste related goal from one focused on increasing our material diversion rate to one focused on reducing materials disposed. This revised goal addresses the impact of waste on our business and the communities in which we operate and is better-aligned with our overall climate strategy. Materials disposal includes: landfill, waste-to-energy, incineration, food-to-waste-water.

²⁷ Materials diversion includes: Recycled: e.g., metal, plastic, paper, cardboard; Donated/liquidated: e.g., furniture, assets, food to charity; Organics: e.g., food to farms, compost, organics, horticulture to farms/compost; yellow and brown grease to biofuel. Brown grease tonnage includes wastewater, and fats, oils and greases extracted from grease taps.

²⁸ Includes revenue from client meetings, trade shows, or conventions where a formal Sustainable Event Plan or quantitative Sustainable Event report was developed. This includes client meetings, trade shows, or conventions where climate was a focus in the event design and/or an estimated event carbon footprint report was provided.

Global Reporting Initiative

The Global Reporting Initiative (GRI) is an international independent standards organization that helps businesses, governments and other organizations understand and communicate their impacts on issues such as climate change, human rights and corruption (for additional information visit www.globalreporting.org). To support investors and stakeholders, MGM Resorts International has provided the following disclosures inline with selected GRI Standards.

Universal Standards

GRI 2: G	eneral Disclosures		
	Standard	Disclosure	References
The org	anization and its reporting practices		
2-1	Organizational details	Name of the organization: MGM Resorts International (NYSE: MGM) Nature of ownership and legal form: Publicly traded Delaware corporation Location of headquarters: 3600 Las Vegas Boulevard South, Las Vegas, Nevada 89109 Location of operations: refer to Form 10-K for complete list	<u>Form 10-K (p. 1)</u>
2-2	Entities included in the organization's sustainability reporting	Unless noted, the program descriptions and data in this report represent our primary market in the USA. Some of our metrics are consolidated globally. Where that is the case, they are indicated as such. We intend to increase the global consolidation of ESG metrics as systems and capabilities allow.	
2-3	Reporting period, frequency and contact point	Sustainability reporting period: Calendar year Sustainability reporting frequency: Annually Financial reporting period: Calendar year Sustainability report publication date: May 2023 Contact point: sustainability@mgmresorts.com	
2-4	Restatements of information	None during the reporting period.	
2-5	External assurance	MGM Resorts has received external assurance on energy consumption, and Scope 1, Scope 2 (Location-based), and select Scope 3 carbon emissions data since 2019. For 2022 data, MGM Resorts is expanding its external assurance of environmental metrics to include Scope 2 (market-based) emissions, water consumption, and an additional Scope 3 category.	
Activitie	es and workers		
2-6	Activities, value chain, and other business relationships	 Sectors: Casinos & Gaming; Hotels & Lodging; Restaurants Value chain: MGM Resorts has an extensive value chain and robust Global Procurement program. Our primary procurement categories include food & beverage, operating supplies and equipment, and corporate services. For additional information on our sourcing initiatives and policies, refer to our website. Other business relationships: We also have international online gaming operations through our consolidated subsidiary LeoVegas AB and domestic online gaming operations through our unconsolidated 50% owned venture, BetMGM, LLC. 	MGM Resorts Global Procurement
2-7	Employees	Total employees: 72,552 Female employees: 35,798 Male (and declined to state) employees: 36,751 Employee figures are provided as a headcount as of December 31 of reporting year. Excludes approximately 1,000 employees of LeoVegas.	SI&S Data - Diverse and Inclusive Workplace

Governo	overnance			
2-9	Governance structure and composition	MGM Resorts governance structure consists of a Board of Directors, an Executive Management team, and functional departments. The Board of Directors is the highest governance body and has the following committees: Audit, Human Capital and Compensation, Nominating/Corporate Governance, Corporate Social Responsibility & Sustainability, and Finance. As of December 31, 2022, the Board of Directors had 11 members, 10 of which are independent. 4 Directors are women and 2 Directors are racially and ethnically diverse. For additional information refer to our Proxy Statement.	Proxy Statement (p. 6-14)	
2-10	Nomination and selection of the highest governance body	The Board, upon recommendation of the Nominating/Corporate Governance Committee, selects candidates for nomination to the Board. The Board welcomes recommendations for Board candidates from stockholders. The Nominating/Corporate Governance Committee identifies individuals qualified to become Board members (consistent with criteria that it recommends to the Board) and recommends nominees to the Board. The Nominating/Corporate Governance Committee to be considered as a Board member by any stockholder or otherwise. The Nominating/Corporate Governance Committee may engage an independent executive search firm to assist in identifying qualified candidates. Our Corporate Governance Guidelines and the Nominating/Corporate Governance Committee reviews the qualified; scharter provide that any search firm engaged to identify potential Board nominees include persons who bring diversity with respect to self-identified characteristics such as race, ethnicity, gender, and sexual orientation in the initial list of qualified candidates from which the Nominating/Corporate Governance Committee selects director candidates in connection with any search for a new director. The Nominating/Corporate Governance Committee reviews all recommended candidates in the same manner regardless of the source of the recommendation.	Corporate Governance Guidelines (p. 4-6) Proxy Statement (p. 11-12)	
2-11	Chair of the highest governance body	The Board of Directors is chaired by Paul J. Salem, an independent director.	Proxy Statement (p. 13)	
2-12	Role of the highest governance body in overseeing the management of impacts [is this missing a word?]	 The Corporate Social Responsibility and Sustainability Committee is appointed by the Board of Directors to assist the Board in: Reviewing significant policies and performance and providing guidance on matters relating to corporate social responsibility and sustainability; Overseeing and monitoring the Company's vision and values related to corporate social responsibility and sustainability; Advising the Board and management on significant public issues that are pertinent to the Company and its stakeholders related to corporate social responsibility and sustainability; and Assisting management in setting strategy, establishing goals and integrating corporate social responsibility and sustainability into strategic and tactical business activities across the Company to create long-term stockholder value. 	Corporate Social Responsibility and Sustainability Committee Charter	

2-13	Delegation of responsibility for managing impacts	Bill Hornbuckle, our Chief Executive Officer & President, oversees environmental and social matters on behalf of management and serves as a liaison between the Corporate Social Responsibility & Sustainability Committee and management. In 2020, we brought the previously separate environmental sustainability, corporate responsibility and human resource divisions under Jyoti Chopra, Chief People, Inclusion & Sustainability Officer, reporting directly to Bill Hornbuckle. With this consolidated approach, we are integrating a cultural prioritization of diversity, equity & inclusion, community engagement and environmental sustainability within our broader human capital strategy. A team of subject matter experts provides technical expertise and execution support for social impact and sustainability, and specific programs are implemented through functional Centers of Excellence and properties, some of which have dedicated social impact & sustainability experts on their staff.	ESG Governance
2-14	Role of the highest governance body in sustainability reporting	The Corporate Social Responsibility and Sustainability Committee of the Board of Directors of MGM Resorts shall Review the Company's annual Social Impact and Sustainability Report and other public disclosures and reporting, such as public policies and position statements, or advocacy related to sustainability, environment and corporate social responsibility.	Corporate Social Responsibility and Sustainability Committee Charter
2-15	Conflicts of interest	Each Director is expected to act with integrity and to adhere to the policies in the Company's Code of Business Conduct and Ethics and Conflict of Interest Policy (the "Code of Conduct") applicable to all of the Directors, officers, employees, contractors and agents of the Company or its affiliates. A Director's business, charitable or personal relationships may occasionally give rise to a material interest on a particular issue that conflicts, or appears to conflict, with the interest of the Company it is the reappaghility of each Director to identify notantial	Corporate Governance Guidelines (p. 14-15)
		interests of the Company. It is the responsibility of each Director to identify potential conflict situations and bring them to the attention of the Board or the Audit Committee, to whom the Board has delegated responsibilities with respect to the handling of certain conflicts. The Board or the Audit Committee, after consultation with counsel, will determine on a case-by-case basis whether an actual or apparent conflict of interest exists. The Board or the Audit Committee will take appropriate steps to handle conflicts when they arise, including by recusing a Director having a conflict from voting or from participating in Board or committee discussions on an issue so as to ensure that all Directors voting or participating in discussions on an issue involving a conflict are disinterested with respect to that issue.	
2-16	Communication of critical concerns	Per the MGM Resorts Code of Conduct, all employees are obliged to report any known violations or suspected violations of the Code, our policies, rules, regulations, or the law. MGM Resorts has has engaged with an independent company, Ethics Point, to operate an ethics and compliance hotline and website where employees may anonymously voice concerns and help identify issues or violations. All employees must acknowledge their adherence to the Code upon hire and annually thereafter.	<u>Code of Conduct (p. 9-11)</u>
2-17	Collective knowledge of the highest governance body	The Board recognizes that economic, social and geo-political factors affecting our global business are continually changing and the skills of our Board members need to keep pace. A summary of experience and skills possessed by Directors includes leadership experience, financial experience, industry experience, public company directorship experience, and government experience.	Proxy Statement (p. 11)
2-18	Evaluation of the performance of the highest governance body	The Board, through procedures developed and recommended by the Nominating/ Corporate Governance Committee, conducts an annual self-evaluation of its performance and effectiveness. Each committee also conducts an annual self-evaluation using procedures developed with the Nominating/Corporate Governance Committee. Each committee discusses the results of its self-evaluation with the Board.	Corporate Governance Guidelines (p. 15)

2-19	Remuneration policies	The Company believes that Director compensation should be reasonable in light of what is customary for companies of similar size, scope and complexity and should reflect the time, effort and expertise required of Directors to adequately perform their duties. The Nominating/Corporate Governance Committee recommends to the Board for approval general principles for determining the form and amount of Director compensation and, subject to such principles, evaluates annually the status of Board compensation, reporting its findings and recommendations to the Board for approval. Director compensation is currently comprised of a cash component as well as an opportunity to participate in the Company's future growth prospects through equity incentive awards. Currently, Board members who are employees of the Company do not receive compensation for their service on the Board.	Corporate Governance Guidelines (p. 11-13) Proxy Statement (p. 22-23)
2-20	Process to determine remuneration	The Board evaluates annually the status of Board compensation with the Company's compensation consultant, Frederic W. Cook & Co., Inc. ("F.W. Cook"). The Human Capital and Compensation Committee assists the Board in establishing, implementing and reviewing the compensation program for the Company's Chief Executive Officer and other executive officers, and such other members of senior management as the Committee may designate from time to time. Part of executive compensation is linked to ESG performance. The Implementation of ESG Strategy (weighted 10%) is a strategic goal in the Annual Incentive Program for our chief executive officer and named executive officers. Progress is determined using a selection of Social Impact & Sustainability goals and targets.	Proxy Statement (p. 22-23) Human Capital and Compensation Committee Charter
2-21	Annual total compensation ratio	CEO total annual compensation: \$16,238,075 Median employee total annual compensation: \$39,171 CEO pay ratio: 415:1	Proxy Statement (p. 69)
Strategy, p	olicies and practices		
2-22	Statement on sustainable development strategy	Letter from CEO and President Bill Hornbuckle and Corporate Social Responsibility & Sustainability Chair Rose McKinney-James	Social Impact & Sustainability Report (p. 2)
2-23	Policy commitments	MGM Resorts is committed to conducting our business fairly and responsibly. As a signatory of the UN Global Compact, we support the Ten Principles centered on Human Rights, Labor, Anti-Corruption, and a precautionary approach to Environmental issues. MGM Resorts is also a proud signatory of ECPAT-USA's Code of Conduct for the Protection of Children from Sexual Exploitation in Travel and Tourism. These commitments and the policies that support them rise to the highest levels of the Company and highlight their importance for how we run our business. Details on our risk management approaches are detailed in our proxy statement. Our values, principles, expectations, and responsibilities are outlined in our Code of Conduct. Information on human rights policy commitments can be found in the Global Human Rights Policy.	<u>UNGC</u> <u>Proxy Statement (p. 13-15)</u> <u>Code of Conduct</u> <u>Global Human Rights Policy</u>
2-24	Embedding policy commitments	It is the responsibility of every MGM Resorts employee, contractor, officer, and director to support and comply with Company policies, including those related to responsible business conduct. Education and training play a critical role in embedding our policy commitments into our everyday operations, and we have a goal to train 100% of management employees on Social Impact & Sustainability policies.	Social Impact & Sustainability 2025 Goals
2-25	Processes to remediate negative impacts	Processes to remediate negative impacts are outlined in the "Speaking Up, Reporting Concerns, and Getting Help" section of the Code of Conduct.	Code of Conduct (p. 11)

2-26	Mechanisms for seeking advice and raising concerns	MGM Resorts is committed to maintaining a workplace that promotes open, honest communications. We have engaged an independent company, Ethics Point, to operate an ethics and compliance hotline where concerns about ethics or violations of the Code of Conduct or other policies can be anonymously reported. The services are available 24 hours a day, 7 days a week.	Code of Conduct (p. 10)
2-27	Compliance with laws and regulations	MGM Resorts complies with all applicable laws per our Code of Conduct.	Code of Conduct (p. 20)
2-28	Membership associations	MGM Resorts maintains membership in the following associations: American Gaming Association, Boston College Center for Corporate Citizenship, Chief Executive for Corporate Purpose (CECP), ERM ESG Working Group, Events Industry Council, Events Industry Council Committee for Sustainability and Social and Impact, GreenBiz Executive Network, Impact NV, Nevada Giving Council, Nevada Hotels & Lodging Association, Nevada Resort Association, Nevada Resort Association Working Group on Environmental Sustainability, Sustainable Brands Corporate Member Network, Sustainable Purchasing Leadership Council, U.S. Green Building Council, World Resources Institute (Cool Foods); Additional memberships and partners are listed in our Social Impact & Sustainability Report.	

Stakehold	Stakeholder engagement			
2-29	Approach to stakeholder engagement	 As part of MGM Resorts' program Focused on What Matters, we engage with stakeholders including employees, customers, communities, shareholders, and suppliers. We recognize that the interests of these groups may not always be complimentary, but that by focusing on collective gain, we can achieve the objectives of our stakeholders, to the health and longevity of our communities and environment, and, ultimately, to the success and profitability of our company. Examples of stakeholder engagement includes: Employees: Employees are the cornerstone of MGM Resorts and critical to our success. Through our talent development function, we have a plethora of engagement programs dedicated to the learning and development and health and well-being of our people. We have a network of 20 employee network groups across 12 affinities. MGM Resorts proctors an annual survey to determine and measure the level of satisfaction among our employees. Customers: The satisfaction of our customers is critical to the success of our company. We measure customer satisfaction using an array of metrics, including net promoter scores via customer satisfaction surveys. MGM Resorts properties. Communities: As a member of the social and economic progress of where we live. We engage with our communities in several ways, including the MGM Resorts Foundation, charitable giving, and employee engagement and voluntering. The MGM Resorts Foundation has raised more than \$100 million and supported more than 1,500 charitable giving, and employee trans and locations in which MGM Resorts reported in our annual Social Impact & Sustainability and ESG performance is reported in our annual Social Impact & Sustainability and ESG performance is reported in our annual Social Impact & Sustainability Report and supplementary data disclosures, Form 10-K filings, Proxy statements, corporate governance presentations, and the dedicated section to ESG on our corporate website. Our executive t		
2-30	Collective bargaining agreements	A significant portion of our labor force is covered by collective bargaining agreements. As of December 31, 2022, approximately 38,000 of our employees are covered by collective bargaining agreements (approximately 50%).	<u>Form 10-K (p. 9)</u>	

GRI 3: Material Topics			
	Standard	Disclosure	References
Disclosure	es on material topics		
3-1	Process to determine material topics	At MGMRI, we recognize that in general, assessing materiality requires consideration not only of any applicable materiality standard, but also of our purpose in assessing materiality and in communicating to our stakeholders. Our public disclosures, including voluntary environmental, social and governance (ESG) disclosures (particularly those related to climate) include a range of topics that we believe are relevant to our business and may be of interest to our investors and other stakeholders. We use the definition of materiality established under U.S. federal securities laws for the purposes of complying with the mandatory disclosure rules and regulations enforced by the U.S. Securities and Exchange Commission (SEC) and applicable stock exchange listing standards. However, in our voluntary ESG disclosures, including those that relate to climate change, we have adapted an approach to materiality based on the specific subject matter and purpose of said disclosures. Our approach to voluntary ESG disclosures often considers broader definitions of materiality promulgated by certain external ESG frameworks and reporting guidelines. In 2019 MGM Resorts established an ESG taskforce comprised of executives from strategy, investor relations, risk, finance, purchasing and other functions. The taskforce's mandate was to understand the ESG landscape and strengthen our Company's ESG disclosures. The taskforce focused on understanding how the Company performed on various ESG ranking platforms, including CDP, ISS and others and initiated a strategy to increase transparency and improve scores. Subsequently, the taskforce initiated a formal materiality assessment to obtain internal and external stakeholder input on priority ESG issues. The findings from the assessment, completed in Q1 2020 helped us refine and augment our strategy and triggered a significant increase in the scope and scale of metrics disclosed in our Social Impact & Sustainability Reports. We intend to update this assessment in 2023.

Economic Standards

GRI 201: E	GRI 201: Economic Performance			
	Standard	Disclosure	References	
Managem	nent Approach			
3-3	Management of Economic Performance	MGM Resorts' strategic plan centers on five pillars including strong people and culture, customer-centric model, operational excellence, disciplined capital allocation to maximize shareholder value, and gaming entertainment. In allocating resources, our financial strategy is focused on managing a proper mix of investments in our existing properties, strategic growth opportunities, debt repayment and shareholder returns. We believe there are reasonable investments for us to make in new initiatives and at our current resorts that will provide profitable returns. We regularly evaluate targeted opportunities that provide an attractive return on investment in domestic and international markets, including the ownership, management and operation of gaming facilities and accessing new markets for iGaming and online sports betting, including our acquisition of LeoVegas. We also leverage our management expertise and well-recognized brands through strategic partnerships and international expansion opportunities. We continue to maximize the benefits of our operating model by driving optimization of our Centers of Excellence and enabling best in class operations through adjustments within corporate and property business units. In addition, we have implemented several improvement and cost cutting initiatives comprised of labor, sourcing, and revenue programs that have further improved our operating model and have positioned us as a stronger company.	<u>Form 10-K (p. 6)</u>

201-2	Financial implications and other risks and opportunities due to climate change	We are subject to risks and costs related to climate change. Extreme weather conditions, potentially exacerbated by climate change, may cause property damage or interrupt business, which could harm our business and results of operations. Certain of our properties are located in areas that may be subject to extreme weather conditions, including, but not limited to, hurricanes, floods, tornados, wildfires, and winter storms in the United States and severe typhoons in Macau. Such extreme weather conditions may interrupt our operations or the operations of critical suppliers, damage our properties, and reduce the number of customers who visit our facilities in such areas. In addition, our operations or the operations of critical suppliers could be adversely impacted by a drought or other cause of water stress or shortage. A severe drought of extensive duration experienced in Las Vegas or in the other regions in which we operate or source critical supplies could adversely affect our business. Although we maintain both property and business interruption insurance coverage for certain extreme weather conditions, such coverage is subject to deductibles and limits on maximum benefits, including limitation on the coverage period for business interruption, and we cannot assure you that we will be able to fully insure such losses or fully collect, if at all, on claims resulting from such extreme weather conditions. Additional details on the potential financial implications of climate related risks and opportunities at MGM Resorts can be found in our 2022 TCFD Report.	<u>Form 10-K (p. 23)</u>	

GRI 204: F	Procurement Practices		
	Standard	Disclosure	References
Managem	Aanagement Approach		
3-3	Management of Procurement Practices	 MGM Resorts is a major buyer of goods and services, and a large proportion of our overall spending is concentrated in our home city of Las Vegas. As such, we have significant market power in many purchasing categories. We have used this power to advance our commitment to investing in our communities, fostering diversity and inclusion, and protecting the planet while delivering economic benefits to our stakeholders. In 2019, we engaged the Sustainable Purchasing Leadership Council (SPLC: sustainablepurchasing.org) and leveraged their Strategic Program Planning Process (SP3) to help us develop a comprehensive strategy around Environmentally Preferable Purchasing. We have a range of current procurement projects that support our stated 2025 Protecting the Planet goals. Water (Reduce Water per Square Foot by 33%): Artificial turf, Water Filtration, Pool Controls, Cooling Tower Chemicals Energy (Reduce Energy per Square Foot by 25%): LED Retrofit Completion, Variable Frequency Drives, Cordless Landscaping Tools, Renewable Energy Materials & Waste (Reduce Materials Disposed by 60%): Food Portion Optimization, Liquidations & Donations, Compostable & Recyclable Service ware, Bathroom Tissue and Towel Standardization, Cut Florals to Succulents, Fresh to Freeze Dried Flowers Other Goals: Straws, Produce, Chicken Eggs, Copy Paper On the social front, MGM Resorts is an innovative leader in Supplier Diversity with a transforming economic impact in local and diverse communities. Through our voluntary Supplier Diversity program, we identify, advocate and connect certified, diverse-owned suppliers to opportunities within our supply chain. 	Sustainable Supply Chain
	Disclosures		
204-1	Proportion of spending on local suppliers	MGM Resorts focuses on spending with diverse suppliers, regardless of their location. In 2022, MGM Resorts spent 12.3% of domestic biddable spend with diverse suppliers.	SI&S Data - Supplier Diversity

Environmental Standards

GRI 302: Er	GRI 302: Energy			
	Standard	Disclosure	References	
Manageme	ent Approach			
3-3	Management of Energy	MGM Resorts has developed a best-in-class energy program focused on driving efficiency and pursuing a clean energy future. We have bold energy goals and use a data-driven approach to drive progress. We codify our commitment to energy efficiency and renewable energy sourcing in our enterprise environmental policy, which aligns with the United Nations Sustainable Development Goals, particularly SDG 7: Affordable and Clean Energy. MGM Resorts' formal energy conservation goal is to reduce combined energy intensity by 25% per square foot by 2025 and 30% by 2030, using 2007 as a baseline year. Additionally, we have a commitment to source 100% renewable electricity in the United States and 80% globally by 2030. We also participate in the Better Buildings Challenge, a program of the United States Department of Energy, which includes a commitment to improving energy efficiency by reducing energy intensity by 20% within ten years from a 2010 base year. In 2022, we continued to fulfill our pledge to maintain a 25% reduction target by 2025 since the base year of 2007. Our Facilities Center of Excellence (COE) manages annual capital and operating budgets dedicated to the deployment of energy efficiency measures. For example, in 2021, we completed approximately 1.5 million lighting retrofits with LEDs and other efficient alternatives across our portfolio. By piloting a wide array of energy efficiency technologies and scaling the most effective ones, we deliver significant long-term cost benefits while advancing our progress toward energy efficiency and decarbonization. Critical stakeholder groups in energy conservation include property facilities management teams and policymakers. The Facilities COE hosts quarterly meetings with property-level directors and above, where facilities-specific sustainability topics are discussed at every meeting. These topics primarily cover energy efficiency and water conservation. Additionally, our Senior Vice President of Facilities facilitates a monthly meeting with the property president, C	Environmental Policy 2022 CDP Climate Change (p. 37-42) 2022 TCFD Report (p. 15-16) Better Buildings Alliance: MGMRI

GRI 303: W	/ater and Effluents		
	Standard	Disclosure	References
Managem	ent Approach		
3-3	Management of Water and Effluents	As a major operator of resorts, many of which are in the water-stressed destination of Las Vegas, we understand the importance of water as a critical resource for our business	Our Approach to Water Stewardship
		(including cooling, irrigation, pools and water features, guest rooms, food and dining services, and water, sanitation and hygiene services (WASH) for guests and employees) and across the supply chain. In addition to our environmental policy, which aligns with UN	Environmental Policy
		SDG #6: Clean Water and Sanitation, we developed a Global Water Policy to guide our behavior and improve practices around water and codify and communicate our ambition	Global Water Policy
		around water stewardship. In early 2023, 11,000 supervisors and above were required to complete a water policy training and acknowledgment. Our water goals drive our ambition	2022 CDP Water Security (p.1-2)
		around water stewardship to reduce water withdrawal intensity by 33% by 2025 and 35%	MGM Resorts Water Whitepaper
		by 2030. We reset our initial 2025 goal of 30%, having met it in 2019. By year-end 2022, MGM Resorts achieved a 33.4% reduction in water from our 2007 baseline. The	<u>(p.13-14)</u>
		continuation of the COVID-19 pandemic in the first quarter of 2022 partially drives our cumulative performance. With a focus on target setting and monitoring, we utilize several tracking mechanisms, including a centrally managed database that captures utility	<u>CEO Water Mandate: Endorsing</u> <u>Companies</u>
		invoice data and readily shows cost and volumetric trends. We also continuously seek to understand our risk exposure in our basins by utilizing assessment tools such as the WRI Aqueduct Water Risk Atlas and WWF Water Risk Filter annually. In partnership with a	
		third-party expert, we conducted a climate risk assessment and financial impact analysis, including water-related hazards such as water stress and drought. Finally, we participate	
		in third-party water-related benchmarking initiatives and other assessments to measure our water impact, risk exposure, and policies, programs and performance against other	
		companies. As part of our effort to achieve a leadership position in this area, in 2022, we delivered a robust water white paper and a strategic framework for water stewardship	
		that included contributions from sustainability, facilities, government affairs, legal, and others. Additionally, we became the first gaming and Las Vegas-based company to	
		endorse the CEO Water Mandate – a UN Global Compact initiative that mobilizes business leaders on water, sanitation, and the United Nations Sustainable Development Goals.	
Metrics &	Disclosures		
303-1	Interactions with water as a shared resource	Water is a critical resource for MGM Resorts and is used in our direct operations and across the supply chain. In 2022, approximately 90% of water withdrawals were from	Our Approach to Water Stewardship
		municipal sources, while the remainder was via our well water rights. We have a very small amount, less than 1% of total withdrawals, of harvested rainwater at four of our properties:	
		MGM Springfield, MGM National Harbor, MGM Macau, and MGM Cotai.	MGM Resorts Water Whitepaper (p.13-14)
		At our Las Vegas resorts, where our business is most highly concentrated, 76% of water use is non-consumptive (recycled and returned to its source for future use). This is made	<u>(p.13-14)</u>
		possible by a regional-level water treatment and recycling system that captures virtually every drop of water that goes down the drain and sends it back to the source at Lake	
		Mead. The remainder - 24% - is used consumptively. Evaporative cooling systems, horticulture irrigation, and surface water evaporation are the primary sources of	
		consumptive water use. While we have installed indoor water efficiency measures to reduce our non-consumptive water use, we are highly focused on reducing our	
		consumptive water use, given that it leaves the permanent local supply.	

303-2	Management of water discharge- related impacts	Measurement and monitoring of water discharge quality are not relevant for MGM Resorts because all wastewater is discharged into municipal sewer systems across our global operations. Those municipalities manage the treatment and testing of our water discharge. Separate from wastewater treatment, we monitor all potable systems and test quarterly for pathogen organisms and disinfection by-products (DBPs). We annually test all other contaminates required by the primacy agencies, such as lead and copper. Additionally, MGM Resorts engages with a third-party consultant for oversight and laboratory analysis. GRI 304:	Biodiversity		
	Standard	Disclosure	References
-	ment Approach		
3-3	Management of Biodiversity	As outlined by the Convention on Biological Diversity and referenced in The Post-2020 Global Biodiversity Framework, MGM Resorts recognizes the fundamental role biodiversity plays in human well-being and a healthy planet. As a global gaming entertainment company with 31 properties in Las Vegas and other urban destinations, we recognize that impacts on biodiversity primarily exist in our supply chain and that biodiversity loss may present business impacts in the form of physical risks (e.g., agricultural product supply volatility), transition risks (e.g., rising compliance costs), and impact risks (e.g., supply chain disruptions). We also recognize water as a form of natural capital and the potential impacts on biodiversity associated with our renewable energy development. Nature-related risks are overseen by the board-level Corporate Social Responsibility & Sustainability Committee. Our CEO and President, Bill Hornbuckle, oversees matters related to nature risk for management as part of the overall oversight of ESG risks. Recognizing the connection between biodiversity loss and food, MGM Resorts aims in part to reduce its impact on biodiversity by fulfilling its Cool Food Pledge – a collective commitment to reduce food-related emissions by 25% by 2030. Included in this goal are greenhouse gas (GHG) emissions from activities in our agricultural supply chain, such as soil fertilization from the production of food. This goal also covers the carbon opportunity costs of agricultural land use, including the total historical carbon losses from plants and soils on lands used to produce the sourced food. MGM Resorts engages in off- site renewable energy development to achieve our combined Scope 1 and 2 emissions reduction goal. The MGM Resorts Mega Solar Array ("Array") is the primary mechanism we expect to achieve this goal. The Array was developed in a Bureau of Land Management (BLM) designated solar energy zone and special care was taken to minimize habitat disruption to local wildlife. We have a robust program to ma	
304-1	& Disclosures Operational sites owned, leased, managed in, or adjacent to, protected areas and areas of high biodiversity value outside protected areas	No MGM lodging facilities are in or near areas of protected conservation status, according to the World Database of Protected Areas (WDPA).	SASB Hotels & Lodging - Ecological Impacts
304-2	Significant impacts of activities, products, and services on biodiversity	Given that our properties are located in a handful of urban cities in the United States and two properties in Macau, we recognize that the primary impacts of our business on biodiversity are through our upstream supply chain activities. These impacts manifest primarily through the environmental impact of our purchased goods and services. Our construction activities are largely in the form of major renovation projects at our existing properties. For example, in 2022, several of our Las Vegas Strip Resorts underwent guestroom remodels where finishes, fixtures, and furniture were updated. Our sustainable procurement strategy, which covers the environmental impact of our supply chain activities, will include assessments of our suppliers' impacts on biodiversity. Insights from these assessments conducted in 2023 will be used to inform supplier engagement to address biodiversity loss and habitat disruption.	GRI 304-2

304-3	Habitats protected or restored	One instance of MGM Resorts supporting habitat restoration is through the PrintReleaf Exchange program to achieve a 'tree neutral' impact from our copy paper consumption. PrintReleaf issues future biomass credits for paper measured where trees are planted in forests that will eventually mature to the equivalent amount of paper measured in terms of future fiber created. In 2022, the consumption of approximately 49 million standard pages resulted in reforesting 5,901 standard trees (primarily in Madagascar and the Dominican Republic). This contributes to a cumulative total of 40,548 planted trees since 2018. PrintReleaf administers an 8-year audit process to track the progress and survivability of the trees. SGS International provides independent inspection, verification, testing, and certification, including field audits to verify compliance with the PrintReleaf Standard.	GRI 304-3
304-4	IUCN Red List species and national conservation list species with habitats in areas affected by operations	All MGM Resorts properties are located in or near areas of endangered species habitat. Species include but are not limited to: Mojave Desert Tortoise, Little Brown Bat, and Chinese Bahaba.	SASB Hotels & Lodging - Ecological Impacts

GRI 305: E	GRI 305: Emissions				
	Standard	Disclosure	References		
Managem	ent Approach				
3-3	Management of Emissions	At MGM Resorts, we strive to lead our industry in responding to climate change with bold action and clear advocacy for a clean energy future. Our approach, developed in collaboration with the Board and management, is informed by an understanding of climate science and based on a detailed climate impact, risk, and opportunity assessment. Governance of climate-related risks and opportunities is embedded into our overall corporate governance, and as of 2020, climate-related risks are assessed as part of our formal enterprise risk management process. To manage these risks and opportunities, our Board of Directors has well-defined oversight, and our management team helps to implement strategies to enable progress toward our climate goals. We implement specific measures to foster management-level governance of climate-related risks and opportunities, including an ESG Task Force, executive goal sponsorship, ESG-linked executive compensation, and climate-related policies. We codify our commitment to climate action and emissions reduction in our enterprise environmental policy, which aligns with the United Nations Sustainable Development Goals, particularly UN SDG #7 (Affordable and Clean Energy) and UN SDG #13 (Climate Action). Our ambition around climate change is driven by a set of science-based targets. In 2021, we established two climate targets, both aligned with the 1.5°C pathway: (i) a commitment to reducing absolute Scope 1 and 2 GHG emissions by 50% by 2030 (2019 base year); and (ii) a commitment to science from the Science-based Targets Initiative ("SBTi") and were approved in April 2023, codifying our commitment to reducing our emissions in line with climate science. In 2016, our company transitioned to distribution-only service with the local utility in Southern Nevada to control our energy future and increase our use of renevable electricity. In mid-2021, production from the Array began, providing up to 90% of daytime electricity use of our Las Vegas Strip Resorts (>65M square feet) and approximately 30% o	2022 CDP Climate Change (p. 26) SBTi – Companies Taking Action TCFD Supporters Las Vegas Strip Goes Solar (press release) The MGM Resorts Mega Solar Array (YouTube video)

GRI 306:	Waste		
	Standard	Disclosure	References
Manage	ment Approach		
3-3	Management of Waste	At MGM Resorts, we recognize the materials we choose and products we buy drive much of our lifecycle environmental impact. This also affects our ability to manage waste as some materials are more durable, recyclable, or reusable than others. We have a robust program to manage materials and waste across our Design & Development activities and operations. We codify our commitment to Materials & Waste management in our enterprise Environmental Policy, which aligns with the United Nations Sustainable Development Goals, particularly SDG 12: Responsible Consumption and Production. MGM Resorts has bold commitments to reduce materials disposed to landfill by 60% by 2025 and 75% by 2030 (2007 base year), and as part of our science-based Scope 3 emissions reduction target, we aim to reduce waste-related emissions by 45% by 2030 (2019 base year). We are committed to increasing environmentally preferable purchasing in priority categories, accelerating materials recycling, and further exploring the use of circular economy principles. Food Loss & Waste is an important area in our program, given that it is the largest single stream we divert at our company. Our approach to food waste management is aligned with the United States Environmental Protection Agency ("EPA") Food Recovery Hierarchy. Led by MGM Resorts' Social Impact & Sustainability COE, key internal stakeholders such as partners from facilities, food and beverage, and purchasing are actively engaged in materials disposal and diversion through in-person training and orientation with standard operating procedures. We also engage local nonprofit organizations to develop partnerships to enhance diversion. For example, chefs at Aria Resort & Casino, Bellagio Hotel & Casino, Mandalay Bay Resort & Casino and MGM Grand, Las Vegas, donate meals to Three Square Food Bank, Southern Nevada's primary food bank, reducing food waste disposed to landfill and supporting food security in the community.	Our Approach to Materials & Waste Environmental Policy America Recycles Day (video)
Metrics a	& Disclosures		
306-1	Waste generation and significant waste-related impacts	As a major developer and operator of resorts and entertainment venues, we require large volumes of materials and can generate significant levels of waste. Our Design & Development activities can produce related waste from renovation projects, such as construction and demolition debris. Our operations, including gaming activities, hotel and restaurant operations, and entertainment experiences, generate a broad array of waste. As part of our ongoing monitoring of materials and waste, we track the following single streams: Materials disposed (including landfilled waste, waste-to-energy, incineration, and food-to-wastewater), Recycled waste (including furniture, assets, food to charity), Organic waste (including food waste, horticulture and green waste and yellow and brown grease).	Our Approach to Materials & Waste
306-2	Management of significant waste- related impacts	A major environmental initiative at MGM Resorts is managing Materials & Waste inside our resorts, using a unique approach to sorting materials for our guests. In Las Vegas, to maximize the volume of materials we divert from landfills, most materials disposed in event and convention spaces, guestrooms, kitchens, dining areas, casino floors, and other areas are hand-sorted in our sorting facilities. For our most significant waste stream, food waste, we have several partnerships with external organizations on food waste diversion, including a food-to-pigs partnership with several farms near Las Vegas. Property teams and functional teams within functional COEs are responsible for the execution of waste reduction plans (including food waste reduction).	Our Approach to Materials & Waste

GRI 308: 5	GRI 308: Supplier Environmental Assessment				
	Standard	Disclosure	References		
Managen	nent Approach				
3-3	Management of Supplier Environmental Assessment	As a global gaming entertainment company, we recognize that many of our environmental impacts occur in our supply chain, primarily through the purchase of materials. We codify our commitment to materials management in our enterprise Environmental Policy, which aligns with the United Nations Sustainable Development Goals, particularly SDG 12: Responsible Consumption and Production. In 2021, we released a formal Supplier Code of Conduct in which we strongly encourage suppliers to measure and set goals to manage their environmental and social impacts. Additionally, we have published a Supplier Code of Conduct Guide to support our suppliers in activating our recommended actions. We endeavor to mitigate supply chain risks through multiple strategies, including supplier and commodity risk assessment, on-shoring, supplier diversity, and supply contingency planning. In 2022, MGM Resorts Global Procurement led a supplier risk assessment where questionnaires were distributed to 200+ critical suppliers, determined by spend, to conduct a supply chain segmentation and understand supply chain risk. This was conducted in partnership with a third-party expert. Performance data and qualitative information on policies, commitments, and programs were included in these questionnaires.	Environmental Policy Supplier Code of Conduct Supplier Code of Conduct: Guide		

Metrics &	letrics & Disclosures				
308-1	New suppliers that were screened using environmental criteria	We are committed to promoting environmental responsibility among our suppliers. We developed a supplier code of conduct and included it in 100% of new (and renewed) supplier contracts since its publication in 2021.	Supplier Code of Conduct Supplier Code of Conduct: Guide		
308-2	Negative environmental impacts in the supply chain and actions	 At MGM Resorts, we recognize environmental impacts in our supply chain, which could manifest as rising GHG emissions, depletion of water sources, and impact on nature. We leverage policies, a Scope 3 emissions reduction target, and commodity-specific programs to manage and reduce the environmental impact in our supply chain. As outlined in our Supplier Code of Conduct, we require compliance with all applicable environmental laws and regulations among our suppliers and encourage the following actions: Develop an environmental policy and implement an environmental management system across the organization Identify and manage chemicals and other materials that pose a hazard to the environment if released to ensure safe handling, movement, storage, recycling or reuse, and disposal Review the MGMRI Environmental Policy and contribute to MGMRI's environmental goals In 2022, we developed a science-based climate target – approved by SBTi in April 2023 – for our value chain emissions aligned with the well below 2.0°C pathway: a commitment to reducing absolute emissions across significant Scope 3 categories by 30% by 2030 (2019 base year). Through our sustainable procurement strategy, we apply multiple levers to reduce embodied emissions in our purchased goods and services to fulfill this goal. An example includes the endorsement of the Cool Foods Pledge to reduce food-related emissions by 25% by 2030. This includes engagement with the World Resources Institutes and internal partners from Food and Beverage, Global Procurement, and Social Impact & Sustainability. One instance of MGM Resorts supporting habitat restoration is through the PrintReleaf Exchange program to achieve a 'tree neutral' impact from our copy paper consumption. 3-3	Management of Employment	At MGM Resorts, we recognize our employees are the cornerstone of our business. Our people deliver a leading level of service to our guests, helping drive the company to achieve of vision of being the world's premier gaming entertainment company. We use best hiring, recruitment, retention, and related practices to foster a strong workforce that delivers exceptional results. As of December 31, 2022, we had approximately 46,000 full-time and 18,000 part-time employees domestically. In addition, we had approximately 10,000 and 1,000 employees at MGM China and LeoVegas, respectively.	Form 10-K (p. 9) MGM Careers Investing in Our Communities Supplier Code of Conduct
		MGM Resorts actively recruits, develops, engages, and retains a diverse workforce. From our non-discriminatory hiring, promotion, and performance management practices to our leadership development initiatives, we seek to promote opportunity for our employees and ensure that everyone feels safe and valued for being their authentic self. Led by our Executive Director of HR Analytics, we leverage people analytics in our strategic workforce planning and use the insights to drive retention and foster diversity, equity and inclusion.	Fostering Diversity, Equity, and Inclusion Code of Conduct
		We cultivate relationships with educational institutions, communities, professional organizations, and network groups to attract diverse talent pools. We aim to develop and enhance transparent talent systems that ensure equal access to employment and career growth opportunities for all. We promote diverse representation in our Board of Directors and throughout all management levels, including middle and senior leadership. We are dedicated to driving employment of military veterans and spouses through our Boots to Business program. We aim to ensure equitable pay for all employees considering education, experience, and job expectations.	
		MGM Resorts maintains an Ethics and Compliance Program which drives the values of our business. The cornerstone of that program is the Code of Conduct. The Code of Conduct and the Conflict of Interest Policy and their underlying principles apply to the members of our Board of Directors, employees, officers, contractors, and other agents of MGM Resorts or any of its affiliates. Employees are required to adhere to the Code of Conduct and participate in regular trainings on Company policies and expectations, including the Policy Against Discrimination, Harassment, and Retaliation and the Equal Employment Opportunity Policy.	
		MGM Resorts also expects our suppliers to provide fair and safe working conditions for all workers and to treat their employees with dignity and respect. We expect each supplier to work diligently to conduct its business in full compliance with applicable laws and the requirements of the Supplier Code of Conduct, which has been informed by industry practices and internationally agreed upon standards, including the Universal Declaration of Human Rights and the ILO Declaration on Fundamental Principles and Rights at Work.	
		We seek feedback from our employees in several ways, including the annual Employee Engagement Survey. In the 2022 survey, the Employee Net Promoter Score – the rate at which employees are willing to recommend MGM Resorts as an employer – increased 11.8 points relative to 2021. Furthermore, 77.9% of employees agreed that their manager demonstrates MGM Resorts' values. These results represent an over 65% participation rate in 2022.

	Standard	Disclosure	References		
Manageme	ent Approach				
3-3	Management of diversity and equal opportunity	Our commitment to diversity and inclusion is formally implemented through three strategic priorities: People, Culture and Suppliers & Customers. In terms of People, our strategy begins with attracting, developing, and retaining diverse talent and ensuring that talent has equal access to leadership opportunities. We do that by continuously working to embed diversity and inclusion across our human resources practices, from onboarding, to mentoring, to succession planning and promotion. We fundamentally believe that harnessing the power of diversity leads to breakthrough thinking and innovation in our company.	Our Approach to Fostering Diversity, Equity and Inclusion 2022 Annual Report Form 10-K (p. 8) Supplier Code of Conduct		
		We have established robust key performance indicators, which are tracked and published alongside our annual Social Impact and Sustainability Report and reviewed internally with management and our Corporate Social Responsibility & Sustainability Committee of the Board of Directors. In addition, we have detailed internal Human Capital workforce reports, which included demographic and diversity data, and are reviewed with the CSR & Sustainability Committee of the Board, Executive management, and leadership teams on a regular basis.	SI&S Data - Diverse and Inclusive Workplace		
		Diversity, equity, and inclusion is advanced through a range of programs and initiatives which include employee education and training, community partnerships, recruitment and talent development, advocacy, engagement and outreach and through internal groups like our Supplier Inclusion and ESG task forces. Responsibility is driven and led by our Chief People, Inclusion and Sustainability Officer, who reports directly to the Chief Executive Officer and President and is supported by a centralized Diversity, Equity & Inclusion team and the Human Resources department.			
		Internally, we use multiple channels to facilitate communication and to continuously advance one of our core values: Champion Inclusion. The channels include but are not limited to open forums with executives, employee engagement surveys with detailed action planning, and employee network groups. In 2021, MGM Resorts launched an initiative called "Focused on What Matters: Courageous Conversations." The goal of the conversations is to create actionable ideas on how MGM Resorts can live up to its values and enhance diversity, equity, and inclusion both within the company and across our communities. We have conducted sessions with employee cohorts including African Americans, Latinx and Hispanic, Asian American and Pacific Islanders, Women and LGBTQ+.			
		MGM Resorts is an innovative leader in supplier diversity with transforming economic impact in local and diverse communities. Through our supplier diversity program, we identify, advocate and connect certified, diverse-owned suppliers to opportunities within our supply chain. By actively seeking to buy from and offer mentorship to diverse suppliers, we not only ensure a more resilient supply chain but also support the economic development of the very communities in which we operate. Our program enabled us to achieve goal of spending at least 10% of domestic biddable spend with diverse owned suppliers in 2021, and we aim to continue this positive trend.			
		By embedding diversity and inclusion into our business strategies, we are more directly able to attract diverse segments of society to our resorts and entertainment offerings while showcasing MGM Resorts as the employer of choice in our local communities.

3-3	Management of Non- discrimination	At MGM, we are committed to maintaining a workplace and public space free from discrimination or harassment. All MGM employees, contractors, officers, and directors are required to review and abide by the Code of Conduct as well as the Policy Against Discrimination, Harassment, And Retaliation. This policy and procedure provides information to ensure that employees are aware that discrimination, harassment, or retaliation are not allowed — regardless of title or position at MGM Resorts. Our suppliers are also required to adhere to the MGM Resorts Supplier Code of Conduct, which states that Suppliers must not discriminate against workers and other stakeholders, including customers and business partners, on the basis of race, color, national origin, ancestry, sex, gender identity or expression, transgender status, age, sexual orientation, religion, veteran status, disability, perceived disability, union affiliation, genetic information, marital status, pregnancy, lawful migrant status, or other similar factors in hiring, terms and conditions of work, or other employment practices. Suppliers must recognize the right of all workers to equal opportunities in all aspects of employment, including benefits, remuneration, training, evaluation of the quality of their work, and access to professional development and advancement. 3-3	Management of Freedom of Association and Collective Bargaining	 MGM Resorts is committed to actively working to uphold basic human rights in the workplace. This commitment extends to fundamental labor principles which include freedom of association and the right to make free decisions regarding collective bargaining. A significant portion of our labor force – approximately 38,000 employees as of December 31, 2022– is covered by CBAs. In addition, as required by the MGM Resorts Supplier Code of Conduct, suppliers must respect workers' right to associate, organize and bargain collectively in a lawful and peaceful manner without penalty, retaliation, or interference. Where workers are represented by a union, Suppliers are required to establish a constructive dialogue with their freely chosen representatives and bargain in good faith with such representatives. MGM Resorts maintains open lines of communication with our employees to provide regular updates and ensure awareness of relevant labor and operational information. For example, our Chief Executive Officer and president hosts a quarterly townhall with leaders to share relevant updates and information. 	2022 Annual Report (p. 21) Global Human Rights Statement/ Policy Code of Conduct Supplier Code of Conduct

3-3	Management of Child Labor	 Our Global Human Rights Policy emphasizes MGM Resorts' commitment to basic human rights as a core component of the way we do business and engage our employees. This commitment and policy contains overarching principles that we embed into our policies and systems, including the prohibition of child labor in all forms. Our suppliers are also required to adhere to the MGM Resorts Supplier Code of Conduct. This code emphasizes that suppliers must not employ any persons under the age of 15, the applicable minimum age for employment, or the applicable age for completing compulsory education, whichever is highest. Suppliers must observe all applicable legal requirements as well as conditions as set out in the ILO Minimum Age Convention (No. 138) for all workers under 18 years of age. Suppliers must have verification processes in place to ensure no recruitment of child labor. MGM Resorts is a signatory of the Principles of the United Nations Global Compact and supports the effective abolition of child labor (Principle 5). A communication on progress is provided annually to demonstrate performance across the ten principles. 	Global Human Rights Statement/ Policy Supplier Code of Conduct UNGC

3-3	Management of Security Practices	MGM Resorts is committed to creating a safe work environment free of any actions or threats of violence. The employee Code of Conduct includes guidance on how to lead a safe workplace and take incidents or threats of violence seriously. We have both a Workplace Violence Policy and Workplace Safety Policy in place that are required learning for all employees. MGM Resorts maintains a Security Center of Excellence whose mission is to protect the company's global interests by providing enterprise-wide strategic guidance and standards to advance the delivery of the highest quality security related services. This function develops and provides training to security personnel and drives excellence and consistency in security standards and service delivery for property operations. The security operations function oversees security leadership development and guidance, aligns industry practices, and manages quality assurance, among other responsibilities. The Security CoE takes a proactive role through prevention and deferment strategies, enabling MGM Resorts to identify safety concerns and take steps to mitigate known threats. This strategy involves the CoE using analytics, providing role-specific training, and working closely with internal and external partners through ongoing communications and using a consistent process to collaborate on matters of shared interests. All MGM Resorts employees, including security personnel, are required to review and uphold the MGM Resorts Global Human Rights Statement/Policy as well as our Anti-Human Trafficking Policy and accompanying training. The policy and training articulate the company's unwavering commitment to combating human trafficking and protecting the dignity, equality, and fair treatment of all human beings while providing awareness and responsive training to employees about the indicators of human trafficking, as well as the appropriate response to suspected human trafficking situations. MGM Resorts expects any parties who do business with or on our behalf to conduct bus	Initiatives Against Human Trafficking			

Management Approach 3-3 Management of Local Communities As a member of the communities in which we operate, we understand our responsibility to contribute to the social and economic progress of where we live. We collaborate closely with the public sector, policy makers, educators, and nonprofit organizations to promote the social and economic advancement of those in our community. Our Approach to Communities We focus on building our communities through charitable giving, employee engagement, volunteering, and through the MGM Resorts Foundation. We have established a set of strategic priorities focused on workforce development, education, and food security. Our goals include expanding our support of nonprofit workforce development and education programs from 25% to 40% by 2025. We are also working to surpass 1.12 million volunteer hours, donate 5 million meals through our Feeding Forward program as well as raise \$120 million from employee donations. Proxy Statemen In 2021 MGM Resorts agreed to be a founding partner in a new farming facility, Freight Farms, which is expected to launch growing operations in two 40-foot shipping containers that can produce an output equivalent to that of 3.5 acres of land-based farming. The project is expected to bring fresh produce into Las Vegas' Historic Westside, a predominantly African American community, and help address food insecurity by providing fresh, healthy food to the local community farming facility was advanced in 2022 with the support of MGM Resorts food and beverage team members who have collaborated on the project and provided consulting support to the city on a	erences

pro-bono basis. The project is fully operational as of April of 2023. In 2022, MGM Resorts partnered with Grant a Gift Autism Foundation-Ackerman Center on a new vocational job placement program, providing training and MGM Resorts employment opportunities to individuals with autism. As the largest private employer in Nevada, MGM Resorts has a responsibility to contribute to social and economic progress of our community, including creating pathways to employment for individuals with autism. National data shows that most autistic adults are unemployed or underemployed and experience substantial challenges to attaining competitive employment opportunities. The program helps ensure that teens and adults with autism are provided the support necessary to gain meaningful employment. As part of the partnership, MGM Resorts has pledged \$1 million to expand the program over the next few years. Our Employee Network Groups (ENGs) are a cornerstone of our culture and one of the avenues through which our company engages with our communities. They are designed to develop and strengthen relationships among employees with cormon identities, interests and issues, share valuable knowledge and information about career paths and development at our Company, provide mentoring, and support various company initiatives, including community engagement. For example, one of our newest ENGs, Planet Protectors, is dedicated to environmental sustainability and has collaborated with a variety of local nonprofit organizations in 2022, including The Nature Conservancy,	o Protecting the

GRI 414: Su	GRI 414: Supplier Social Assessment						
	Standard	Disclosure	References				
Manageme	Management Approach						
3-3	Management of Supplier Social Assessment	 MGM Resorts expects all businesses in the value chain, including, but not limited to suppliers of goods and services, vendors, contractors, service providers, and each of their respective subcontractors, to commit to the MGM Resorts Supplier Code of Conduct and the expectations it sets forth. This Code of Conduct is informed by industry practices and internationally agreed upon standards, including the Universal Declaration of Human Rights and the ILO Declaration on Fundamental Principles and Rights at Work. It also supports the commitment MGM Resorts has made to the Principles of the United Nations Global Compact, to which we are a signatory. MGM Resorts expects each supplier to work diligently to conduct business in full compliance with applicable laws and the requirements of this Code of Conduct. To help us understand risks in our supply chain, MGM Resorts Beords Procurement initiated a supplier risk assessment in partnership with a third-party expert in 2020. In 2022, we initiated supplier code of Conduct. In addition, MGM Resorts provides the Supplier Code of Conduct Guide as a supplemental document that outlines the steps and actions suppliers can take to ensure alignment with, and go above and beyond, the requirements of the Code of Conduct. MGM Resorts requires its business partners to ensure compliance with all applicable laws and regulations as mandated by national laws. While some of the guidance in this Guide might align with applicable regulations, this Guide does not intend to provide a comprehensive overview of steps required for compliance with MGM Resorts' expectations at two levels, Fundamental and Encouraged. Fundamental — Refers to performance in line with internationally agreed standards and applicable UN and ILO Conventions, to support alignment with the expectations set forth in the Supplier Code of Conduct. Encouraged — Refers to performance that goes above and beyond minimum expectations at Fundamental level and provides guidance for s	<u>Supplier Diversity</u>				

3-3	Management of Supplier Social Assessment (continued)	More broadly, MGM Resorts is a major buyer of goods and services, and a large proportion of our overall spend is concentrated in our home city of Las Vegas. We have significant market power in many purchasing categories and have used this power to advance our commitment to investing in our communities, fostering diversity equity, and inclusion, and protecting the planet while delivering economic benefits to our stakeholders. Recognizing this as a complex area of program development, in 2019 and 2020 we engaged the Sustainable Purchasing Leadership Council (SPLC: sustainablepurchasing.org) and leveraged their Strategic Program Planning Process (SP3) to help us develop a comprehensive strategy. SPLC inspired us to connect and organize our previously separate work on supplier diversity and environmentally preferable purchasing with emerging work on supply chain human rights and Total Cost of Ownership into one holistic sustainable supply chain program. As this strategy unfolds, we will increasingly prioritize working with suppliers and procuring products and services that deliver on the core attributes of price competitiveness and quality but that also help us meet our environmental, social and economic goals while helping reduce our main environmental, social and economic risks.	
		One example of this strategy in action is our work on supplier diversity: a proactive business process that seeks to provide diverse suppliers equal access to purchasing opportunities. It promotes supplier participation reflective of the diverse business community and encourages economic development. We have established a goal that by 2025 we will spend at least 10% of our annual, domestic, biddable procurement dollars with diverse suppliers. To support this commitment, we have a full-time team of ambassadors dedicated to ensuring local and diverse business owners gain awareness and access to contracting opportunities at MGM Resorts. Our Global Procurement Center of Excellence seeks qualified, competitive and diverse businesses to provide goods and services and connects these suppliers to opportunities within our supply chain.	

Metrics & I	Disclosures		
414-1	New suppliers that were screened using social criteria	Supplier Diversity By the Numbers	
		Participation in the MGM Resorts Supplier Diversity program requires eligible suppliers who identify as diverse owned to obtain certification through a recognized U.S. certifying agency.	
		 By the numbers: Average of 10% of total biddable spend paid annually to diverse suppliers We've spent \$4.6 billion with diverse-owned suppliers We engage more than 300-400 diverse suppliers annually 67 graduates from the MGM Resorts Supplier Diversity Mentorship Program since 2017, with a goal of 150 graduates by 2025 	
414-2	Negative social impacts in the supply chain and actions taken	MGM Resorts expects each Supplier to work diligently to conduct its business in full compliance with applicable laws and the requirements of the MGM Resorts Supplier Code of Conduct. 		collaboration, engages in public outreach and internal efforts in the areas of guest education, the development of best-practice operational policies and procedures, and employee training.	
		All MGM Resorts employees receive training to reinforce the company's commitment and approach to responsible gaming.	
		 These trainings occur at the point of hire and reoccur on an annual basis. Customer-facing employees receive advanced level trainings to increase responsible gaming awareness and build confidence within their customer interactions. Certain gaming employees receive additional department specific responsible gaming training, based on the employee's position and level of customer interaction. 	
		Technologies and Capabilities We are committed to ongoing engagement with medical experts as well as federal, state, and local officials for the health and safety of our guests. In addition to partnering with world-class experts in epidemiology, public health and occupational health and safety, we have made it a priority to identify technologies and capabilities designed to make the guest experience healthy, safe, and stress-free. We have taken the important lessons learned during the pandemic and embedded them into many parts of our operations. For example, our HVAC systems currently have the capability to circulate up to 100% outside fresh air and to supply up to 12 air exchanges per hour throughout our properties. We routinely review and adjust the operation of our HVAC systems, fully recognizing the important role they have in keeping employees and guests healthy and safe.	
		<u>Anti-Human Trafficking</u> All forms of human trafficking, slavery, and child labor are crimes against humanity and our global society. We play an influential role in the entertainment and hospitality industry, and with that influence comes the responsibility to take a stand against human trafficking to protect the dignity, equality, and fair treatment of all human beings. At MGM Resorts, it is our policy to ensure that we safeguard human rights in everything we do by:	
		Refusing to look the other way if we see or suspect human rights violations Alerting MGM Security if we see or suspect evidence of human trafficking Advising our suppliers and business partners that we expect them to comply with laws and governmental regulations that protect the health and well-being of workers and communities	
		Our Global Human Rights Policy applies to all employees of MGM Resorts. MGM Resorts expects any parties who do business with or on behalf of MGM Resorts to conduct business in ways that uphold the principles of this policy. This includes combating human trafficking, as well as the use of forced labor or child labor.	
		Our suppliers are also required to adhere to the MGM Resorts Supplier Code of Conduct. This Code includes Forced Labor and Human Trafficking, and requires all suppliers to ensure that no forced labor, including bonded, indentured, involuntary prison labor or slave labor is used, as defined in the ILO Forced Labor Convention (No. 29) and the Abolition of Forced Labor Convention (No. 105).

Energy Management	SV-HL-130a.1 (1)	Total energy consumed (enterprise total), gigajoules	8,521,092	8,440,500	7,238,578	Total energy consumed includes purchased/self- generated electricity, natural gas, propane, diesel, gasoline, and jet fuel. Increases in 2021 and 2022, relative to 2020, were primarily driven by recovering business volumes following steep declines in 2020. The previously released total energy metric included electricity and natural gas but did not included propane, diesel, gasoline, and jet fuel. The full breakdown of the main components of our energy are provided below.
	MGM metric	Energy consumed (electricity and natural gas (or equivalent)) (enterprise total), gigajoules	7,982,360	7,922,890	7,028,070	Includes purchased/self-generated electricity and natural gas at all properties as well as propane/LPG at MGM Macau (where natural gas service is unavailable). Increases in 2021 and 2022, relative to 2020, were primarily driven by recovering business volumes following steep declines in 2020.
	MGM metric	Energy consumed (other sources) (enterprise total), gigajoules	538,733	517,610	210,508	Other sources include diesel, jet fuel, gasoline, and propane at all properties other than MGM Macau.
	SV-HL-130a.1 (2)	Total energy consumed (hotel allocation), gigajoules	2,289,345	2,100,597	1,860,277	Energy consumption by casinos is allocated based on percentage of total resort area classified as casino (including gaming floor, race and sports books, high limit areas and casino-specific walkways).
	SV-HL-130a.1 (3)	Percentage grid electricity, % of total energy	58.5 %	58.1 %	59.9 %	Percentage grid electricity is based on total electricity (including utility-provided and renewable electricity procured under power purchase agreements), divided by total energy consumed (combined electricity, natural gas (or equivalent) and other sources as defined above).
	SV-HL-130a.1 (4)	Percentage renewable energy, % of total energy	6.9 %	10.4 %	9.8 %	Percentage renewable energy is based on total renewable electricity (including utility-provided and procured under power purchase agreements), divided by total energy consumed (combined electricity, natural gas (or equivalent) and other sources as defined above). MGM does not currently procure renewable natural gas.
	MGM metric	Percentage renewable electricity, % of purchased electricity	22.4 %	18.7 %	17.2 %	Percentage renewable electricity is primarily based on grid-provided electricity in proportion to each State's annual Renewable Portfolio Standard (RPS) requirement. Excludes self-generated renewable energy if Renewable Energy Credits (RECs) have not been retired on behalf of MGM.

All metrics in **bold** have been verified by MGM Resorts Internal Audit. ³⁰ The Cosmopolitan of Las Vegas is excluded from all 2022 metrics except the <u>Hotel Activity Metrics</u> below.

Торіс	SASB Code	Metric, unit	2022	2021	2020	Comments
Water Management	SV-HL-140a.1 (1)	Total water withdrawn (enterprise total), thousand cubic meters	17,965	16,897	14,179	Total water withdrawn includes utility water and well water. 2018-2019 increase primarily due to addition of MGM Springfield and MGM Cotai. 2019-2020 decrease primarily due to COVID-related closures.
	SV-HL-140a.1 (1)	Total water withdrawn (hotel allocation), thousand cubic meters	5,152	4,484	3,763	Water withdrawal by hotels is allocated based on percentage of total resort area that is hotel rooms and corridors. Excludes convention venues, restaurants and lobbies.
	MGM metric	MGM Las Vegas Strip resorts water withdrawn, thousand cubic meters	12,704	11,678	9,460	MGM Las Vegas Strip resorts water withdrawal provided as an additional MGM-defined metric to help clarify water volumes in our key market.
	MGM metric	MGM Las Vegas Strip resorts estimated water consumed, thousand cubic meters	2,996	2,754	2,231	MGM Las Vegas Strip resort water consumption estimate is based on third-party analysis of the percentage of water withdrawn in Las Vegas that does not get returned to its source (Colorado River/Lake Mead). Estimate based on meters, assumptions, and extrapolation totaling an consumptive proportion of approximately 24%. Generally, all interior water use in Las Vegas is "non-consumptive" as it is returned the source; exterior water use is generally consumptive.
	SV-HL-140a.1(2)	Water withdrawn in regions with High or Extremely High Baseline Water Stress, % of total water withdrawn	0	0	0	Following SASB guidance, the definition of regions with High or Extremely High Baseline Water Stress is based on the World Resources Institute's (WRI) Water Risk Atlas tool, Aqueduct. Using this definition and available dataset, no MGM properties are in regions of high or extremely high baseline water stress. MGM is currently engaged with third-party water experts to better understand local water stress and further validate our exposure to water risks.
	SV-HL-140a.1(2)	Water consumed in regions with High or Extremely High Baseline Water Stress, % of total water consumed	0	0	0	
Ecological Impacts	SV-HL-160a.1(1)	Number of lodging facilities located in or near areas of protected conservation status, #	0	0	0	No MGM lodging facilities are located in or near areas of protected conservation status according to the World Database of Protected Areas (WDPA).
	SV-HL-160a.1(2)	Number of lodging facilities located in or near areas of endangered species habitat, #	22	22	22	All MGM lodging facilities are located in or near areas of endangered species habitat. Species include but are not limited to: Mojave Desert Tortoise; Little Brown Bat; Chinese Bahaba. Increase in 2019 due to addition of MGM Springfield and MGM Cotai. Decrease in 2020 due to Circus Circus divestiture.
	SV-HL-160a.2	Description of environmental management policies and practices to preserve ecosystem services	are described and in the Prot	tecting the Plar act & Sustaina	nental Policy net section of	MGM Resorts Environmental Policy
